

From Prototyping to Production: One-stop-shop for your product realization

Hahn-Schickard has established three lines for your product realization:

■ **Prototyping line**

- > Tooling, replication and fast iteration cycles for your product development phases
- > Small series production up to 50 pcs.

■ **Scale-up line**

- > Transfer of pre-final processes according to your specifications
- > Clean room environment and hygiene standards according to your needs
- > Medium series production up to 1000 pcs.

■ **Production line**

- > Design Transfer onto the production line according to DIN EN ISO 13485 standards
- > Clean room environment and hygiene standards according to your needs
- > Large series production up to 200.000 pcs./year
